Standard Land Administration Practices

LandRite saves time and reduces administrative effort with tools that eliminate the duplication of work. Remove repetitive manual processes and re-entering data with schedules and documents produced in Microsoft Word or Excel, automated processes for amalgamations and assignments, configurable letters for rentals, rent reviews, expiries and notice of assignments.

Feature Rich and Efficient

LandRite's feature-rich system is designed for efficiency, keeping land information accurate and easily accessible. Integrated modules enable you to share data and save time by eliminating redundancy in your work process. With many predefined quick search types, combined with a user-defined, customizable, exportable search, you get quick and easy access to the documents you need. **LandRite's** most comfortable tool for all users, LandGrid, illustrates holdings in a familiar map-like interface so that even casual users can get quick and direct answers, contributing to overall efficiency and decreased training time.

Dedicated Support Team

LandRite's active development schedule combined with direct user involvement keeps the application relevant and up-to-date. Major releases on a regular basis ensure you are confident in your investment and that it is protected. Maximize your investment by trusting Pandell's strong and dedicated support team to provide the training you need.
