580275	APPROVED	Completion Costs	Alberta	\$60,000.00		60.0
580275	PENDING_APPROVAL	Geological and Geophysical	Alberta	\$206,500.00		60.0
580274	APPROVED	Drilling Costs	Alberta	\$239,500.00		75.0
5802789	EDITABLE	Drilling Costs	Alberta			0.0
580275	APPROVED	Completion Costs	Alberta	\$60,000.00		60.0
580275	PENDING_APPROVAL	Geological and Geophysical	Alberta	\$206,500.00		60.0
580274	APPROVED	Drilling Costs	Alberta	\$239,500.00		75.0
5802789	EDITABLE	Drilling Costs	Alberta			0.0
580275	APPROVED	Completion Costs	Alberta	\$60,000.00		60.0
580275	PENDING_APPROVAL	Geological and Geophysical	Alberta	\$206,500.00		60.0
580274	APPROVED	Drilling Costs	Alberta	\$239,500.00		75.0

### Total AFE Management From Creation to Approval

AFENexus is a software system that automates your AFE approval workflow through a robust, multi-level approval engine. Powerful application-driven features include “action required” emails to approvers, notifications that signal when an approval is made, and digital document repositories attached to each AFE. With AFENexus, managing hundreds of AFEs is as easy as managing just one.

#### Your Time is Money. AFENexus saves you both.

AFENexus offers more speed and flexibility than any other AFE system. Whether your data is held in-house or hosted by Pandell, you can access AFENexus from anywhere in the world using a current version of Internet Explorer and a secure VPN connection. Determining the state of an AFE is as easy as logging in and checking the workflow status. In addition to providing full audit security, it integrates with your accounting and capital budget systems to ensure the fastest and most accurate management of your capital.

# AFENexus™

A FE MANAGEMENT

## The Premiere Web-based Solution for Creating, Tracking, Approving, and Reporting Your Capital Costs

### Web based Convenience

Access the application from anywhere with any current version of Internet Explorer.

### Full Auditability

All property changes, workflow transitions, and system generated emails, are fully auditable.

### Robust Workflow

A robust workflow engine that can be used to model most business AFE needs.

### Accounting Integration

AFENexus integrates with Qbyte and Pandell's own JVNexus O&G accounting software.

### Document Repository

The document repository allows for any type of document (.doc, .pdf, .xls) to be uploaded and attached to your AFE.

### Electronic Signatures

Digital signatures can be uploaded into the system and automatically display on copies for partners.

### AFE Reporting

AFENexus reports include Estimated Exposure, Capital Expenditure, and Field Estimate Variance.

### Capital Budget Integration

AFENexus integrates with ESI.Manage for budget integration and control.

### Role Based Security

Add and subtract multiple users and assign them to pre-determined roles.

### Paperless

Upload your documentation into the document repository where it is secure, backed up, and handy when you need it.

### Kick the Learning Curve

AFENexus has been applauded for its easy-to-navigate user interface. Just like our other NexusSuite products, AFENexus has been modeled after Microsoft® Office® programs you already know and use the most.

### Align Operations with Your Budget Strategy

With full capital budget and accounting system integration, AFENexus users save hundreds of hours that would otherwise have been wasted on redundant and error prone data entry.

### Audit-Compliance and Peace of Mind

AFENexus tracks and reports all property changes, workflow transitions, and system generated emails. This allows users to quickly determine what, where, and when changes occurred to an AFE.

### About Pandell Technology Corporation

Pandell is a software solutions company that delivers industry specialized software products and business services. For oil and gas companies, Pandell offers it's NexusSuite™ of software products and its NexusServices™ for professional accounting. Pandell is also recognized by enterprise organizations for its ability to build and manage PLISolutions™, large-scale, secure, web-based applications delivered on Pandell's advanced technology.
