

GeoNexus™

LAND MANAGEMENT

The web-based management system for land and contract data, data-linking and show-all search.

The Modern Solution in Land Management

GeoNexus is an evolutionary step forward in land management solutions. This robust web-based system enables you to securely access all your leases and contracts from anywhere you happen to be, with simply an internet browser.

Whether you're managing 50 or 100,000 land records, GeoNexus helps you maintain, retrieve and compile all your lease information - all in one place. Simply click to view or search your agreement data, legal land descriptions, mineral rights, surface rights, royalty owners, and working interests.

Easily compile and configure reports with detailed information such as joint operating agreements, farm-outs, and purchase & sale agreements.

The Pandell Oil and Gas NexusSuite™

GeoNexus

LAND MANAGEMENT

The Premiere Web-based Land Management Software Solution for Oil and Gas Companies

Web Based Convenience

Secure access to the application from anywhere with any current version of Internet Explorer.

Flexible Reporting

Reports include acreage counts, land schedules, rental calendars, partner invoicing, and more.

No IT Costs

Stop paying expensive IT consultants. Companies with IT departments can opt for self-hosting.

Document Repository

The document repository allows for any type of document (.doc, .pdf, .xls) to be uploaded and attached to your leases and contracts.

Mapping Integration

GeoNexus currently integrates seamlessly with Accumap and GeoScout.

Custom Exports

Get standard or customised data exports in Excel spreadsheet format.

PDF Printing

All reports are available as digital pdf copies that you can print, save, or email.

JVNexus Integration

GeoNexus integrates with JVNexus for your joint-interest billings.

Kick the Learning Curve

GeoNexus is modeled after programs that you already know and use the most. Users can jump right in to a familiar Microsoft Office-like environment that also has Google-like search capability.

Workplace Flexibility

GeoNexus 3.0 is a web-based solution, that lets you securely manage your land and contracts data from anywhere across the internet.

Audit-Compliance and Peace of Mind

We could give you stacks of obscure reports you'll never use, but why would we? Instead, GeoNexus gives you all the top industry standard reports with extensive filtering ability.

About Pandell Technology Corporation
