

## PANDELL<sup>®</sup> LAND SUITE

Pandell's land software products work together to streamline surface, mineral and joint interest contract administration for startups to global enterprises.

### PANDELL PROJECTS<sup>™</sup>

Acquisitions & Communications

Pandell Projects centralizes land acquisition project work. Producers and brokers can manage, map, and communicate all surface leases, third party agreements, and First Nations consultations over the web.

### PANDELL LANDRITE<sup>™</sup>

Energy Asset Administration

Pandell LandRite manages your land asset information in a robust onsite system. Its data integrity controls, land grids, and search flexibility help you capture, view, and report on leases & contracts.

### PANDELL GEO<sup>™</sup>

Energy Asset Administration

Pandell Geo simplifies management of your land assets over the web. Its easy-to-use interface, flexible reporting, and cross-browser access ensure all your lease and contract information is only a click away.

### PANDELL CROSSINGS<sup>™</sup>

Third Party Agreements & Consents

Pandell Crossings automates your right-of-way documentation so you can track agreements, generate detailed reports, and reduce admin workload. Capture GPS details and link documents over the web.

### PANDELL ROADS<sup>™</sup>

Road Use Agreements & Invoicing

Pandell Roads automates your road use administrative processes to increase revenue and reduce workload. It creates AER data validated invoices, agreements, addendums, schedules and letters.

### PANDELL DIVESTMENTS<sup>™</sup>

Automatic Document Generation

Pandell Divestments revolutionizes property disposition processes. It integrates with your land management system to generate required documents including conveyance, schedules, ROFR, and more.
