Consent	PIPELINE CROSSING PIPELINE in NW 6-40-4 WSM	NW 6-40-4 WSM	E81725

Benefits

Eliminate Backlogs in Administration of Agreements

The key benefit of Pandell Crossings is that it automatically generates consent agreements and related documentation, which takes the pressure off admin staff and enables them to power through high priority project work faster.

Get Immediate Access to Consent Information

If researching the status of a consent agreement sparks a flurry of boxes and paper shuffling in your office, then it's time to go digital. Pandell Crossings hosts a document library so you can easily locate all your consent info on the fly.

Map Agreement Data to Easily Identify Errors

When you're managing high volumes of data, errors aren't always easy to catch. Pandell Crossings plots agreement and project data on a map so you can quickly spot mistakes and be confident that your information is accurate.

Receive Requests & Provide Consent via Pandell Connect

Crossings integrates directly with our new web-based consent portal, Pandell Connect. With Connect, all incoming requests are streamlined into a standardized format that automatically populates data in Crossings.

Features

Generates Agreements

- Addendum replication
- Area pick list
- Auto-create letters, schedules & consent docs
- Business unit pick list
- Define standard & special conditions
- Document generation options
- Consent description builder

- Networking events
- Industry experts
- User lunch & learns

Big Picture Gains

- Free upgrades
- Leading technology
- Free support
- Data hosting
- Product integration
- Bundled pricing

What They're Saying

"Pandell's Crossings system has significantly improved our efficiency. What used to take hours to do, now takes only minutes. Plus, it creates documents and has reporting for management."

Harvest Operations Corp.

Screenshots

The screenshots display the Pandell software interface. The top-left screenshot shows a 'Master Agreements (19) - filtered' view with search filters for status (APPROVED), action date (greater than Nov-05-2015), and a table listing agreements for RAVENWOOD ENERGY CORP., ADVANTAGE OIL & GAS LTD., and BIRCHCLIFF ENERGY LTD. The top-right screenshot shows a map view with a pop-up window for '21 Consents', listing items like 'RU32-001 - Consent 1' and 'RU27-003 - Consent 1'. The bottom-left screenshot shows a navigation menu with options like 'Details', 'Consents', 'Special Clauses', 'Amendments', 'Documents', 'Letters', and 'History'. The bottom-right screenshot shows 'Document Generation Settings' and 'Key Dates' including 'Request for agreement' (Mar-03-2015), 'Addendum submitted' (Mar-01-2015), 'Addendum received' (Mar-18-2015), and 'Cancellation date' (May-07-2016).
