

See Your Land Rights All Mapped Out

Pandell GIS is an Esri-based land mapping software toolset that integrates with Pandell LandWorks to create a visual depiction of your land rights data.

Benefits

Easily Map Your Land Assets

Pandell GIS software connects your land system data to the Esri® ArcGIS mapping platform. It manages spatial data creation and maintenance for all types of land related polygons including upstream and midstream oil and gas, utilities, and renewables projects.

Tie-in to LandWorks Land Management System

Pandell GIS and Pandell LandWorks are two peas in a pod. They work seamlessly together to eliminate data duplication and enable better planning, analysis and communication. By connecting in real-time, they maintain data integrity and facilitate accurate reporting.

Get Esri ArcGIS Technology in a SaaS Hosted Bundle

Pandell GIS is fully integrated with Esri's ArcGIS technology and can be acquired as a single, affordable, hosted solution. By bundling these technologies, you gain world leading GIS tools, reports, and document image display for your land management.

Features

Innovative Technology Tools

- Pandell Landworks-GIS interface
- GIS-enabled dashboards
- Maps on every land agreement
- Live project status maps
- Lease dissection
- E-calendar integration
- GIS web map tools
- Land web map tools
- GIS analyzer

Bridging the Gap in Workflow

- AutoMapper
- Master tract loader
- Facility loader
- Parcel tools
- DMS integration

Recognized Esri Expertise

- Esri file geodatabases
- Gold level partner network
- 20-year cornerstone partner
- SaaS GIS & land bundle
- ArcGIS server basic
- 2-time foundation partner of the year
- Federal small business specialty
- ArcGIS marketplace provider

System Integrations

- Pandell LandWorks
- Land management systems
- Esri ArcGIS server technology
- Document management systems

Bar-Raising Support

- Live help desk
- User training
- Web support library

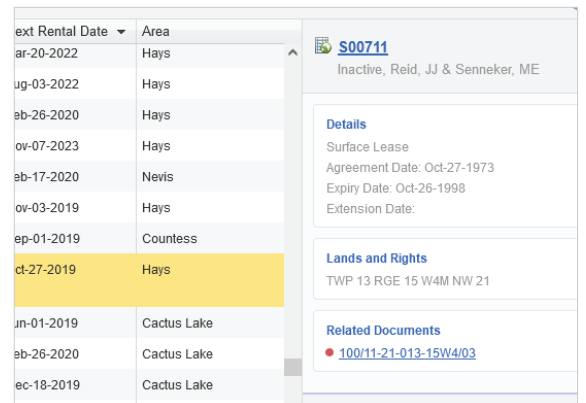

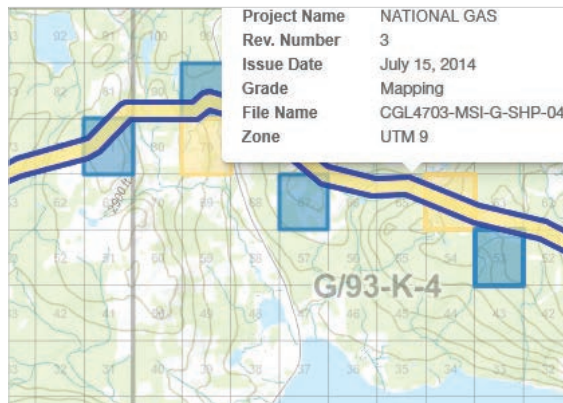

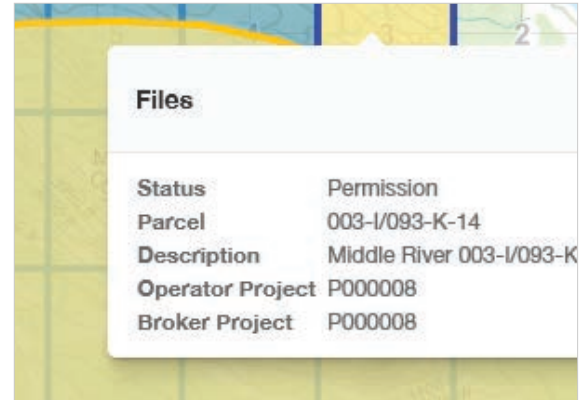

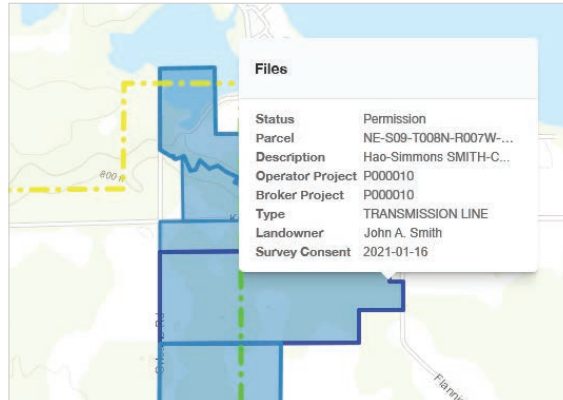

Big Picture Gains

- Free upgrades
- Leading technology
- Free support

- Networking events
- Industry experts
- User lunch & learns

- Data hosting
- Product integration
- Bundled pricing
