

Pandell Technology Corporation Corporate Profile

Overview

Pandell is a software solutions company that's been bringing industry specialized software products and business services to market since 1997. Today the company serves more than 55,000 users across hundreds of organizations in the oil and gas and government sectors.

Pandell's competitive advantage is its unique combination of advanced technology, deep industry expertise, and Software-as-a-Service (SaaS) pricing model. These qualities enable the company to deliver the most modern, affordable software solutions to its clients.

Products & Services

NexusSuite™ back-office software products include tools for financial accounting, production accounting, AFE management, land management, economic evaluation and reserves reporting. Earning nearly 400 client installations and an A+ satisfaction rating by its users, NexusSuite products are the #1 market leader in the Canadian junior oil and gas industry.

NexusWorkforce™ provides expert service and support in all areas of financial, production and taxation accounting for junior oil and gas companies. The team averages 14 years of direct oil and gas experience, making it one of the most knowledgeable accounting service providers in the industry.

PLISolutions™ are large-scale, secure, web-based software applications, created using field proven Pandell Liquid Intelligence™ technology. Custom-built for enterprise organizations, PLISolutions are designed and managed by an experienced team with established best practices for development, deployment, system monitoring, and help desk services.

Technology Innovation

Pandell Liquid Intelligence (PLI™) is the SaaS software toolset that enables Pandell to deliver best-in-class industry software products and custom solutions. Built on Microsoft's latest .NET technology, PLI enables the development of rich, web-based software applications that are faster to build, easier to use, and trouble-free to deploy, support, and maintain. Inherently more scalable and secure than competitive solutions, PLI applications perform better across the web, and readily integrate with other systems.

Awards

Recognized for its rapid business success, its preferential employer standing, and its break-through web-based technology, Pandell's achievements include: Alberta's Fast 50, Calgary's Best Places to Work, Alberta's Best Workplaces, and the Top 300 Technology Companies in Canada.

Management

Drawn from iconic companies such as Microsoft and PriceWaterhouseCoopers, Pandell's management team has carved out a successful history and a strong future for the company. By implementing a recurring-revenue business model, the team has generated controlled growth, sustainable profits, and long-term value for Pandell's customers and shareholders.
