

LAND & GIS

Pandell's land software products work together to streamline surface, mineral and joint interest contract administration for startups to global enterprises.

PANDELL LANDWORKS™

Land Management

North American energy companies across all industries use Pandell LandWorks to manage any number or type of land assets, including surface leases, mineral leases, deeds, rights-of-way, wind energy agreements and more.

PANDELL GIS™

Land Mapping & Analysis

Pandell GIS fully integrates with Esri's ArcGIS Desktop Basic, ArcGIS Server Enterprise technology to facilitate land asset management through both desktop and web-based GIS analysis, reporting and document image display.

PANDELL LANDRITE™

Land Management

Canadian oil and gas companies use Pandell LandRite to manage land asset information. Its data integrity controls, land grids, and search flexibility enable you to capture, view, and report on leases and contracts.

PANDELL PROJECTS™

Acquisitions & Communications

Pandell Projects centralizes land acquisition project work. Producers and brokers can manage, map, and communicate all surface leases, third party agreements, and First Nations consultations over the web.

PANDELL CROSSINGS™

Third Party Agreements & Consents

Pandell Crossings automates your right-of-way documentation so you can track agreements, generate detailed reports, and reduce admin workload. Capture GPS details and link documents over the web.

PANDELL CONNECT™

Land Data Exchange & Approvals

Pandell Connect is a secure web portal for communicating requests and managing consent agreements. It centralizes consent requests by providing real-time status tracking, and end-to-end workflow with Crossings & Projects.

PANDELL ROADS™

Road Use Agreements & Invoicing

Pandell Roads automates your road use administrative processes to increase revenue and reduce workload. It creates AER data validated invoices, agreements, addendums, schedules and letters.
