

PANDELL[®] LAND SUITE

Pandell's land software products work together to streamline surface, mineral and joint interest contract administration for startups to global enterprises.

PANDELL PROJECTS[™]

Acquisitions & Communications

Pandell Projects centralizes land acquisition project work. Producers and brokers can manage, map, and communicate all surface leases, third party agreements, and First Nations consultations over the web.

PANDELL CROSSINGS[™]

Third Party Agreements & Consents

Pandell Crossings automates your right-of-way documentation so you can track agreements, generate detailed reports, and reduce admin workload. Capture GPS details and link documents over the web.

PANDELL LANDRITE[™]

Energy Asset Administration

Pandell LandRite manages your land asset information in a robust onsite system. Its data integrity controls, land grids, and search flexibility help you capture, view, and report on leases and contracts.

PANDELL ROADS[™]

Road Use Agreements & Invoicing

Pandell Roads automates your road use administrative processes to increase revenue and reduce workload. It creates AER data validated invoices, agreements, addendums, schedules and letters.

PANDELL GEO[™]

Energy Asset Administration

Pandell Geo simplifies management of your land assets over the web. Its easy-to-use interface, flexible reporting, and cross-browser access ensure all your lease and contract information is only a click away.

PANDELL CONNECT[™]

Land Data Exchange & Approvals

Pandell Connect is a secure web portal for communicating requests and managing consent agreements. It centralizes consent requests by providing real-time status tracking, and end-to-end workflow with Crossings & Projects.

Pricing, Walkthrough Demos and Free Trials.
