

Streamline Production Accounting

Pandell PA is production accounting software that promotes efficiency by syncing master files with Pandell JV

Visualize your Production, Receipts, and Sales Data

Pandell PA offers a big picture view of what's going on in your flow network. Verify your master setup data and view flow diagrams of live monthly data from production to sales. Export schematics to pdf to see what's changed month to month.

Manage Your Complex Gas Allocation Process

Pandell PA goes beyond basics by providing a robust gas module for complex gas allocation processes. Upstream and midstream companies benefit from gas plant handling that includes multiple liquid extractions.

Sequence	Code	Name
1	TB-303	Condensate extraction
2	MDR-7506	NGLs extraction
3	SP-1200	Fuel gas meter
4	SL-1200 MK2	Flare 1

Sync PA Data Directly with your JV Financial System

Duplicate data entry is a waste of time. Pandell PA's two-way integration with Pandell JV syncs master files and revenue/royalty vouchers. Even better: bundle PA with JV and Geo to get unified customer support and lower startup costs.

FREE SUPPORT

Our support team responds to calls in a timely manner, which includes fast-tracking urgent issues should they arise.

FREE UPGRADES

We never charge our customers for software upgrades which are delivered as fast and as seamlessly as possible.

Features and Screenshots

Quick Start up and Go!

- Fast, Flexible Setup Process
- Edit Masters on the Fly
- Initial Setup Data Import Friendly (Including Royalties)
- Real Time Data Entry Validation
- Masters Sync to Pandell JV
- Data Hosting - No IT Burden
- Setup/Ongoing PA Services

Core Features

- Flow Graph-Based Product Allocation System
- Choice of Gas/NGLs Allocation Methodology (by Component, Heat, Gathered)
- Oil and Gas Flow Visualization Schematics
- ACGAS and CO2 Extractions
- Midstream Plant Functionality
- Flow Split by Owner
- Multiple Sales Points (Swing Gas)
- Detailed Allocation Reporting
- By Component Liquid Sales Splits
- Non-Op Split Backs
- Sales Split Letter Partner Reporting
- Flexible Royalties, Including MRF and IOGC
- Petrinex Reports for AB, BC, and SK
- EnergyLink Royalty Export
- Fee Management Module
- Excel-Based Customizable Reports

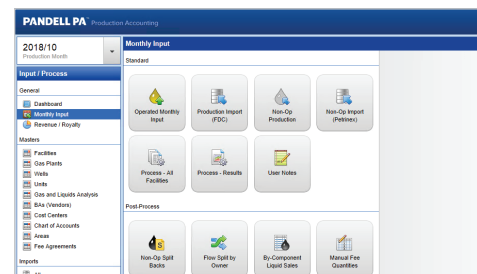

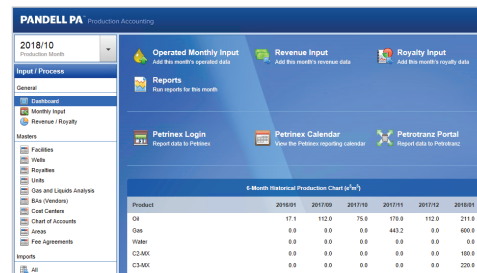

Link to Other Systems

- Pandell JV
- Pandell Geo
- Petrinex (Imports & Exports)
- EnergyLink
- PetroTrans COTS/LTS
- Manitoba EDS Uploads
- Production Manager
- Avocet by Schlumberger
- PVR
- ProdView
- enVision
- Qbyte FM

Efficiency Boosters

- Production Capture from FDC Systems
- Non-Operated Production Import from Petrinex
- Gas and Liquid Analysis Imports
- Revenue and Royalty Exports Direct to Pandell JV
- Easy to Navigate User Interface
- Remote Access from Anywhere
- Guided User Input Validation
- Access to Live PA Support Analysts
