

Overview

Pandell is a premier software company that delivers industry specialized Software-as-a-Service solutions to energy companies in Canada, the US, and globally. Our business offerings include an integrated suite of web-based, back-office software products; a range of outsourced accounting and GIS project services; and custom development of large-scale enterprise web portal applications. Our customers operate in a variety of energy industries including: upstream, facilities, oilfield services, land brokers, pipelines, utilities, mining, and renewable energy. Our strengths include deep industry experience, ground-breaking Lithium™ technology, and a practical software-as-a-service (SaaS) subscription model.

Products & Services

Energy Software Products - Pandell offers a full suite of software products for the energy industry covering financial systems, field operations, and land asset management. With over 800 product installations and 7,000+ users, our software products play a major role in supporting the growth and success of today's energy industry.

Business Services - Pandell provides outsourced and project services for financial accounting, production accounting, GIS mapping, and land records data management. Our teams are highly experienced, having provided oil and gas accounting services for 10+ years, and GIS mapping services for nearly 20 years.

Enterprise Solutions - Pandell builds and manages large-scale .NET portal applications using our field proven Lithium™ web application toolset. Custom-built solutions are designed and managed by an experienced team with established best practices for development, deployment, system monitoring, upgrading, & help desk services.

Technology Innovation

Lithium™ is Pandell's web application toolset built on Microsoft's latest .NET technology. Its 3-layer architecture enables us to deliver rich, cross-browser software applications that are faster to build, easier to use, trouble-free to deploy, support, and maintain. Our software applications are designed to be more scalable and secure than competitive solutions, perform better across the web, and readily integrate with other systems.

Awards

Pandell has achieved industry recognition for its rapid business success, preferential employer standing, and break-through web-based technology. Our formal achievements include: Calgary TechRev Innovator, Alberta's Fast Growth 50, Calgary's Best Places to Work, Alberta's Best Workplace, and the Branham300 Top 250 Technology Companies in Canada.

Management

Pandell's management team has carved out a successful history and a strong future for the company. By implementing a recurring-revenue business model, the team has generated controlled growth, sustainable profits, and long-term value for Pandell's customers and shareholders.
