

**Overview**

Pandell is crafting the future of energy software around the world. We deliver an integrated suite of cloud-hosted, back-office software products coupled with value-add professional services based in Canada and the United States. Our customers range from start-ups to major enterprises operating in a variety of energy sectors including oil and gas, pipelines, utilities, and renewable energy. Our strengths include deep industry experience, ground-breaking Lithium™ technology, and a practical Software as a Service (SaaS) subscription model.

**Products & Services**

**Energy Software Products** - Pandell offers a full suite of software for managing the energy industry’s financial, field operations, land, and GIS information. With more than 1000 product installations and 9,000+ users, our software products play a major role in supporting the growth and success of today’s energy business.

**Business Services** - Pandell provides outsourced and project services for financial accounting, production accounting, GIS mapping, and land records data management. Our teams are highly experienced, having provided oil and gas accounting services for 10+ years, and GIS mapping services for 25 years.

**Enterprise Solutions** - Pandell builds and manages large-scale .NET portal applications using our field proven Lithium™ web application toolset. Custom-built solutions are designed and managed by an experienced team with established best practices for development, deployment, system monitoring, upgrading, & help desk services.

**Technology Innovation**

Lithium™ is Pandell’s web application toolset built on Microsoft’s latest .NET technology. Its 3-layer architecture enables us to deliver rich, cross-browser software applications that are faster to build, easier to use, trouble-free to deploy, support, and maintain. Our software applications are designed to be more scalable and secure than competitive solutions, perform better across the web, and readily integrate with other systems.

**Awards**

Pandell has achieved industry recognition for its rapid business success, preferential employer standing, and break-through web-based technology. Our formal achievements include: Esri Cornerstone and Gold Business Partner, Calgary TechRev Innovator, Alberta’s Fast Growth 50, Calgary’s Best Places to Work, Alberta’s Best Workplace, and the Branham300 Top 250 Technology Companies in Canada.

**Management**

Pandell’s management team has carved out a successful history and a strong future for the company. By implementing a recurring-revenue business model, the team has generated controlled growth, sustainable profits, and long-term value for Pandell’s customers and shareholders.
